thank you to you, Rozzina, and Jennifer,

for your warmth

kindness

generosity

spirit (it's great how sometimes you don't agree and work together with that!)

expertise

the environment is 150% sensitive for such a workshop

I will do my best to practice a little every day, that I may be nice and warmed up when a film audition comes my way.

Have a lovely day, knowing that you touch my heart, especially with your smile,

Nadia,

Pascale

Subject: Thank you!

Hi Rosina,

It was great meeting you yesterday and having the opportunity to learn such valuable information. Your knowledge and experience that you shared with us was incredibly helpful and I am so happy that I had the opportunity to be part of it. I am excited about applying the suggestions you provided us and bring all of that helpful information to my work. The audition process seems much clearer to me now and I thank you so much for that.

I look forward to our paths crossing soon,

Helena Levitt
